

Elly Hopkins

Elly is Head of Programmes for Care & Repair England. She is a qualified Occupational Therapist specialising in Older Adult Rehabilitation, with a previous background of working in the Voluntary Sector. Through her experience in frontline services, Elly has worked to support the well-being of older adults in the community and has witnessed the impact that housing can have on an individual's ability to live well with independence and dignity. Elly has led on the development and delivery of groups and services for Older Adults within the Health Sector and has a wide range of experience in working in partnership with local Voluntary Organisations, Social Services, NHS providers and Housing Organisations.
